DETAILED ACTION

Claim Status: 1- 18 are rejected

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/2/2003 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1- 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Bosch (US Patent No. 6,519,601).

1. Regarding Claims 1, 8, 9, 16, 17, and 18, Bosch discloses a method of generating a medical¹ report, comprising:

displaying a plurality of pre-chosen findings and a separate medical report simultaneously on an electronic display, the medical report comprising a summary section (see Fig. 14, Bosch);

automatically copying electronically a respective pre-chosen finding and user selected finding from the displayed pre-chosen findings into the summary section of the medical report (see column 5, lines 7-54², column 28, lines 49-53, Bosch).

2. Regarding Claims 2, and 10, Bosch discloses a method wherein the medical report further comprises a plurality of group sections, and automatically copying electronically each pre-chosen finding into a group section of the plurality of group sections which corresponds to the pre-chosen finding (see Fig. 17, Bosch).

3. Regarding Claims 3, 6, 11, and 14, Bosch discloses a method further comprising:

receiving for a second time a selection of said respective pre-chosen finding from the displayed pre-chosen findings, the second selection of said respective pre-chosen finding being previously selected and copied into the summary section of the medical report (see Fig. 18, Bosch); and

automatically removing electronically the second selected respective pre-chosen finding from the summary section of the medical report (see Fig. 18, Cancel button, Bosch).

4. Regarding Claims 4, and 12, Bosch discloses a method further comprising selecting the pre-chosen findings from a list of available findings (see Fig. 20A step RI Bosch).

¹ Examiner did not give the term "medical" any patentability weight since it is regarded as an intended use

5. Regarding Claims 5, and 13, the combination of Bosch and Lancelot discloses a method further comprising

displaying on the electronic display an indicator next to the selected pre-chosen finding, separate from the medical report, so that specific information regarding the patient can be identified either from the display of the pre-chosen finding and identified in further detail in the medical report (see Fig. 20A, step 1, Bosch).

6. Regarding Claims 7, and 15, Bosch discloses a method wherein the copying further comprises converting the selected pre-chosen finding into a more descriptive form before copying into the summary section (see Fig. 20B, Bosch).

Response to Amendment

Applicant's argues Bosch fails to discloses or suggest the interactive user selection feature.

Examiner disagrees, referring to column 5, lines 24-28, Bosch discloses the user interface.

Applicant argues Bosch fails to teach or suggest that particular finding may be user selected and automatically copied.

Examiner disagrees. Referring to column 28, lines 49-53, Bosch discloses a the step of automatically copying the findings is the user selects.

² when any of the tables updated the system will update the report and make it accessible to the user which corresponds to display pre-chosen fining and user selected finding.
